

POLYURETHANE AROMATIC BINDER

Aloro A910 is a solvent-free, one component polyurethane based MDI prepolymer aromatic binder.

PRODUCT	Aloro Polyurethane Aromatic Binder
CODE	A910
VISCOSITY	3000 cps
NCO CONTENT	10.5%
DENSITY	1.1 g/cm ³
STORAGE	15-25°C
SHELF LIFE	12 months from mfg date when stored correctly
COLOUR	Natural, yellow

GUIDELINES FOR USAGE

Aloro Polyurethane Aromatic Binder is mixed with 1-3 mm EPDM or SBR granules at a 20% ratio by mass. The surface should be clean, dry, free of oil, grease or dirt and any other contaminants that would impair adhesion. This mixture can be applied with specially designed pavers in order to obtain a uniform, level surface.

The cure time varies with temperature and humidity. High temperature and high humidity will decrease curing time while low temperature and low humidity will increase it.
